www.rbgsyd.nsw.gov.au

ABOUT THE GARDEN

Mount Annan Botanic Garden covers 416 hectares and is Australia's largest botanic garden. It displays the enormous diversity of the Australian flora and features many of Australia's 25,000 known plant species. You can enjoy covered picnic settings and free gas barbecues in magnificent lake and hillside surroundings and experience breathtaking views from the summit of Mount Annan.

There is a Garden Cafe/Restaurant, and a Garden Shop selling Australian native plants so you can take home a small piece of your botanic garden experience with you. Many areas of the Garden are available to hire for private and corporate functions.

Seasonal flowering highlights are in May (banksias), July–August (wattles), September (daisies) and October–November (bottlebrushes).

VISITOR CODE

We ask visitors to please

- Observe safety & information signs
- Note the speed limit is 30 km/h
- Drive only on sealed roads
- Park only on gravel edges or in marked parking areas
- Leave pets & firearms at home
- Take out all rubbish with you
- Note that all wildlife is protected, including snakes, spiders and lizards.
- Note that pedestrians have right of way throughout the Garden.

Please do not

- Light fires — there are free barbecues at picnic areas
- Camp anywhere on site
- Swim, wade or fish in lakes
- Pick, damage or remove plants
- Ride skateboards, rollerblades or bicycles in the Terrace garden.
- Fly kites near electrical power lines or trees.

Please ask a Ranger or inquire at the Visitor Centre for more information.
